

AKRAM ALI FARIDI

Complete Personal & Professional LLM Training Dataset

Compiled from: Resume + Personal Chronological Data + Academic Records

PART A — PERSONAL CHRONOLOGICAL DATASET

1. Basic Identity

Full Name: Akram Ali Faridi

Birthplace: Pratapur, Samastipur, Bihar, India

Permanent Address: Daulatpur, Muktapur, Samastipur, Bihar – 848101

Present Address: Chokkanahalli, Ittagalapura, Bengaluru, Karnataka

Father's Name: Mr. Ahmad Ali Faridi

Mother's Name: Mrs. Mumtaz Begam

Sex: Male

Nationality: Indian

Languages Known: English, Urdu, Hindi, Tamil, Arabic

Phone: +91 9060237575

Email: Akramfaridi@hotmail.com

2. Early Childhood — Delhi

Before beginning his religious education, Akram lived in Shaheen Bagh, Delhi.

Schooling: LKG, UKG, Nursery, and Class 1 at The Modern Sky School, Delhi.

3. Madrassa Journey (Stages 1–4)

Akram was sent to a madrassa in childhood with the goal of becoming a Hafiz — someone who memorizes the complete Arabic Quran Sharif.

Stage 1 — Pratapur

Studied under Hafiz Ji Phool Hasan in Pratapur. Memorized 1–2 Paras of the Quran.

Stage 2 — Sirono Patti Madrassa

Moved to Sirono Patti Madrassa, studied under multiple Hafiz teachers. Memorized approximately 5–6 Paras.

Stage 3 — Managar

Studied Hafiz at Managar for approximately 1–2 years.

Stage 4 — Khanqah Madrassa, Darbhanga

Moved to Khanqah Madrassa in Urdu Bazar, Darbhanga. Studied under Babu Huzoor and Bade Babu Huzoor. There was a small lake-type water body near the Khanqah.

4. The Illness — End of Madrassa Journey

While at Khanqah Madrassa in Darbhanga, Akram contracted severe illnesses — specifically Malaria and Typhoid simultaneously. Due to the severity of Typhoid, his parents withdrew him from the madrassa and brought him back home, effectively ending his journey to become a Hafiz.

5. Schooling Timeline

Class 2–5: The Bright Carrier School

After recovery, transitioned to English-medium schooling. Studied from Class 2 to Class 5 at The Bright Carrier School.

Class 6: Delhi Public High School, Muktapur

Completed Class 6 at Delhi Public High School in Muktapur.

Class 7: Raj Public School

Moved to Raj Public School for Class 7.

Class 9–10: Holy Mission High School

Completed Class 9 and Class 10 (SSC) at Holy Mission High School, Samastipur, Bihar. Scored 84% in SSC (CBSE).

6. Personal Relationships & Emotional History

First Relationship — Simmi Sakshi (Raj Public School)

During Class 7 at Raj Public School, developed feelings for a girl named Simmi Sakshi. Had a brief, light relationship with her.

Most Significant Relationship — Soumya (Holy Mission High School Era)

During the Holy Mission High School years, entered a relationship with a girlfriend named Soumya. The relationship lasted approximately 4–5 years. Soumya was the person Akram loved the most in his life — the most emotionally significant relationship. The relationship eventually ended in betrayal and deep heartbreak, which significantly affected his life trajectory, emotional state, and led to a period of substance abuse and addiction.

Relationship in Tamil Nadu — Shifana

While living and studying in Tamil Nadu (during B.E. graduation), had a relationship with a girl named Shifana.

Overall Relationship History

Akram had approximately 25–30 relationships throughout his life. The betrayal by Soumya was the defining emotional event that caused immense heartbreak (love failure situations), deep emotional pain, and a period of falling into substance abuse and addiction.

7. NDA Preparation & Class 12 — Allahabad

After completing Class 10, moved to Allahabad (Prayagraj), Uttar Pradesh.

Enrolled at The Major Kalshi Classes for NDA (National Defence Academy) preparation for 2 years.

Simultaneously completed Class 11 and Class 12 (HSC, CBSE) at Springer Public School, Phaphamau, UP. Scored 68% in HSC.

Despite rigorous preparation, did not ultimately join the NDA, redirecting toward engineering.

8. Interim Locations

Lived in Kolkata, West Bengal for approximately 1 year.

Also lived in Odisha for a few years during transitional phases of life.

9. Graduation — Chennai, Tamil Nadu

Moved to Chennai, Tamil Nadu for a 4-year undergraduate program.

Completed B.E. in Computer Science and Engineering (CSE) from Syed Ammal Engineering College, affiliated with Anna University.

Graduated with a CGPA of 7.75 / 10 (official transcript) — personal recollection noted 8.3.

Had relationship with Shifana during this period.

10. Masters — Bengaluru, Karnataka

Currently pursuing M.Tech in Artificial Intelligence at Presidency University, Bengaluru.

Roll Number: 20252AIE0012, Semester 2.

Achieved SGPA of 9.18 / 10 in Semester 1 (9.2 personal recollection).

Actively producing research papers, projects, and targeting international publication venues.

11. Current State of Mind & Life Goal

After all the emotional turmoil — the madrasa journey, the illness, years of relationships and heartbreak, the substance abuse phase, and the constant geographic transitions — Akram's ultimate current goal is simply to find absolute peace and live a settled, stable life.

He channels this drive into research, building AI systems, and academic achievement, finding purpose in creation and intellectual work.

12. Personal Achievements & Extracurriculars

- NASA Olympiad Gold Medalist — 2016

- Gold, Silver, and Bronze medals in various sports and extracurricular competitions
- Active contributor to Startup initiative within the Innovation Club at Syed Ammal Engineering College
- Organizing member for various workshops; provided technical support for conferences

PART B — PROFESSIONAL & ACADEMIC RESUME DATA

1. Research Interests

- Computer Vision
- Deep Learning for Food Safety
- Educational Data Mining
- Explainable AI (XAI)
- Transfer Learning
- Psychometric Modelling
- Agentic AI Systems

2. Research Papers

Paper 1: MeatScan v4

Title: Automated Meat Freshness Detection via High-Resolution Deep Learning

DOI: <https://doi.org/10.59256/indjst.20260502048> | Year: 2026

Tech: ConvNeXt · Multi-Scale TTA · Transfer Learning · PyTorch

- Two-phase transfer learning using ConvNeXt-Base pre-trained on ImageNet-1K with multi-scale TTA (320/384/448 px) across a 16-pass ensemble.
- Dataset: 10,517 high-resolution images. Achieved 100% test accuracy, AUC-ROC = 1.0000, zero false negatives on 1,577-image held-out test set.
- Outperformed ResNet-50, EfficientNet-B0, and MobileNetV3-Large under identical benchmarking conditions.

Paper 2: EAWSS — Emotion-Adaptive Work Schedule Automation

Title: Emotion-Adaptive Work Schedule Automation Using Facial Affect Recognition and RPA

Status: Under Submission, 2026 | Tech: DeepFace · UiPath · RetinaFace · Python · RPA

- Modular four-workflow UiPath RPA system: GetEmotionInput, EmotionProcessor, ScheduleBuilder, NotificationSender.
- Integrates DeepFace/RetinaFace webcam-based emotion detection with automated Excel schedule generation and SMTP email delivery.
- Emotion classified into 7 categories mapped to a 1–5 energy scale. Weighted majority-vote aggregation over 5-second capture window, >55% confidence threshold across all 20 evaluation runs.
- Application: affective computing for occupational wellbeing and HR automation.

3. Professional Experience

Web Development Intern — Top Freshers Technologies PVT LTD, Chennai

Period: June 2023 – July 2023

- Combined front-end and server-side code to build interactive webpage features.
- Maintained and updated user interfaces. Integrated Three.js for 3D websites.
- Participated in daily standup meetings with project stakeholders.

Full Stack AI Developer — VEI Technologies PVT LTD, Chennai

Period: May 2024 – August 2024

- Designed a face detection model with a Flask-integrated server.
- Built a TensorFlow AI model to detect Solanum tuberosum (potato) leaf diseases — Late Blight and Early Blight.
- Implemented the system in a React Native mobile app connected to a Flask backend server.

4. Technical Skills

AI / Deep Learning: PyTorch, TensorFlow, Keras, Scikit-learn, XGBoost, SHAP, Hugging Face Transformers, DeepFace, timm (EfficientNetV2, ConvNeXt), Transfer Learning, Test-Time Augmentation, Explainable AI (XAI), K-Means Clustering, Psychometric Modelling

Computer Vision: OpenCV, MediaPipe FaceMesh, Pillow, CLAHE Preprocessing, Haar Cascades, RetinaFace, EAR Blink Detection, Kalman Filtering, Multi-Scale Inference, Gesture Recognition

NLP & Agentic AI: BERT, LLMs, RAG, LangChain, LangGraph, CrewAI, AutoGen, BeeAI, MCP (Model Context Protocol), dlib, Gaze Tracking, Groq API, LLaMA 3

RPA & Automation: UiPath Studio, Python–UiPath Integration, n8n, Flat-File IPC, SMTP Automation, Excel Automation, PyAutoGUI, UiPath Orchestrator, REFramework

Languages: Python, JavaScript (ES6+), TypeScript, Kotlin, C, HTML5, CSS3

Frontend: React.js, React Native, Next.js, Three.js, Vue.js, TailwindCSS, Web3.js, Vanilla HTML/CSS/JS

Backend & APIs: Node.js, Flask, FastAPI, Express.js, REST APIs, SMTP Integration

Databases: MySQL, Firebase (Realtime DB & Firestore), MongoDB, PostgreSQL, Supabase

Cloud, DevOps & Data: AWS (CloudShell, S3, EC2), GCP, Docker, GitHub Actions, Firebase Hosting, Apache Spark, Apache Pig, Linux

Tools & Platforms: Git, Figma, WakaTime

Mobile & Embedded: React Native, Kotlin (Android), Arduino IoT, Embedded Sensors, Viro AR/VR Integration

Soft Skills: Research Writing, Technical Presentation, Cross-functional Collaboration, Adaptability

5. Projects

MudraVision AI

Description: AI system recognizing 50 classical Indian hand gestures using EfficientNetV2-M with real-time inference, gesture-based camera navigation, and both image upload & live video modes.

Tech Stack: PyTorch, EfficientNetV2-M, FastAPI, MediaPipe, HTML/JS

Eye & Nose Controlled Automation

Description: Hands-free HCI system for accessibility — nose tracking moves the cursor; blink detection triggers clicks and scroll via EAR, with Kalman smoothing and UiPath orchestration.

Tech Stack: Python, UiPath, OpenCV, MediaPipe, PyAutoGUI

EAWSS Work Scheduler

Description: RPA system that detects facial emotions via webcam, maps them to energy levels, and auto-generates personalized Excel work schedules delivered by SMTP email.

Tech Stack: Python, UiPath, DeepFace, RetinaFace, OpenCV, Excel

Face Detection Web App

Description: Full-stack browser app for real-time webcam face detection using OpenCV Haar cascades served via Flask REST API with bounding box overlay on the React frontend.

Tech Stack: Python, Flask, React.js, OpenCV

Potato Disease Detection

Description: CNN-based deep learning model classifying Early Blight and Late Blight in potato leaf images, integrated into a React Native mobile app via Flask backend.

Tech Stack: TensorFlow, Python, CNN, React Native, Flask

Antique Item Marketplace

Description: C2C mobile marketplace for antique items with real-time chat, item listings, and an AI-assisted image verification module to authenticate item claims.

Tech Stack: React Native, Firebase, JavaScript

AR Herbal Plant System

Description: AR app that overlays 3D models of medicinal plants with home remedy information on physical plants detected through the camera.

Tech Stack: AR, 3D Modeling

Ski.io Social App

Description: Mobile social platform for community collaboration featuring video calls, live streaming, and voice chat built on Firebase and Node.js.

Tech Stack: React Native, Firebase, Node.js

IoT Anti-Sleep Alarm

Description: Embedded safety device that monitors driver drowsiness via IoT sensors and automatically halts the vehicle to prevent accidents.

Tech Stack: IoT Sensors, Embedded Systems

TalentRank AI

Description: Privacy-first, 100% in-browser HR tool that parses PDF/DOCX/TXT resumes using rule-based NLP (NER, TF-IDF cosine similarity) and ranks candidates against job descriptions with adjustable scoring weights.

Tech Stack: React 19, Vite, Mammoth.js, PDF.js, Firebase

AI Resume Parser

Description: Full-stack app that parses uploaded resumes using LLaMA 3 via Groq API to extract structured profile data, then searches real job listings through RapidAPI (JSearch) and scores each for candidate compatibility.

Tech Stack: React, Vite, FastAPI, Python, Groq (LLaMA 3), RapidAPI

6. Education

M.Tech (AI) — Presidency University, Bengaluru

Score: 9.18 / 10 SGPA | Status: Current — Sem 2

B.E. (CSE) — Syed Ammal Engineering College (Anna University)

Score: 7.75 / 10 CGPA | Status: Completed

HSC (Class 12) — Springer Public School, Phaphamau, UP (CBSE)

Score: 68% | Status: Completed

SSC (Class 10) — Holy Mission High School, Samastipur, Bihar (CBSE)

Score: 84% | Status: Completed

7. Certifications

- Building Generative AI Applications Using Amazon Bedrock
- Fundamentals of LLMs
- Fundamentals of MCP
- MCP for Production Automation
- Computer Vision (Kaggle)
- FusionX Hackathon 2026 — Presidency University (April 24–25, 2026)
- Build Multimodal Generative AI Applications – IBM (Coursera)
- Master Data Science & ML: Foundations to Deep Learning & LLMs – GUVI/HCL
- Scikit-learn Classification Essentials: Imbalanced Data & Pipelines – LetsUpgrade
- Build AI Agents using MCP – IBM (Coursera)
- Agentic AI with LangGraph, CrewAI, AutoGen and BeeAI – IBM (Coursera)
- AI for Business Professionals – HP LIFE / HP Foundation

- Android App using Kotlin Training – IIT Bombay
- Workshop in Robotics – Siddharth Institute of Engineering and Technology
- Full Stack Web Development – VEI Technologies
- ISTE Sponsored Certificate of Appreciation (Tech Expo '24)
- Certificate of Internship – Machine Learning and Algorithms – VEI Technologies
- Certificate of Internship – Web Development – Top Freshers Technologies
- Generative Models for Developers – Infosys
- Deep Learning for Developers – Infosys
- Natural Language Processing for Developers – Infosys
- Introduction to Software Engineering Job Simulation – Commonwealth Bank
- Software Engineering Job Simulation – Skyscanner
- Data Visualisation: Empowering Business with Effective Insights – Tata Group (Forage)
- Professional Networking for Career Growth – HP LIFE Foundation
- Critical Thinking in the AI Era – HP LIFE Foundation
- Generative AI for Beginners – Simplilearn SkillUp
- AI Agents for Beginners – Simplilearn SkillUp
- n8n Course: No Code AI Agent Builder – Simplilearn SkillUp
- AI Engineer Skill Certification Test – One Roadmap
- Frontend Development Skill Certification Test – One Roadmap
- Data Analyst Skill Certification Test – One Roadmap
- Cloud CLI Essentials: AWS CloudShell Power Workshop – LetsUpgrade
- Agentic AI with LangChain and LangGraph – IBM
- AI Foundation – Hexagon / Li2 Edu
- AI Beginner – Hexagon / Li2 Edu
- AI Advanced – Hexagon / Li2 Edu
